

## Canada Company Avenue: Road Reconstruction

### PROJECT UPDATE

As part of the City of Vaughan's Capital Works Program, the City is planning to reconstruct Canada Company Avenue as shown on the map.

### PLANNED CONSTRUCTION WORK

Starting the week of January 4, 2021, the City's contractor will be mobilizing and commencing activities to undertake tree removals, clearing and grubbing. The works, which will include culvert replacement, retaining walls and road reconstruction, will commence spring 2021, under more favourable weather conditions and is scheduled to be completed by fall 2021.

### CONSTRUCTION IMPACTS

The road will remain open to vehicular and pedestrian traffic during construction. Temporary lane restrictions will be required to allow construction activities to proceed in a safe and efficient manner.

Access to private and commercial driveways and entrances will be impacted at times during the road reconstruction and related restoration works. Work at the location of commercial entrances will be staged to maintain continued access during business hours.

**Property owners are reminded that underground systems such as lawn sprinklers, heated driveways, electrical conduits or landscaping, etc. within City-owned boulevards or property limits may be impacted by the proposed construction work. At the property owner's discretion and where possible, the removal of such privately-owned underground systems in advance of construction may be prudent. The City is not responsible for any damages that may occur during construction to privately-owned items within City property limits (Encroachment By-law No. 034-2017). If you are planning to repave your driveway, please contact us for coordination.**

Thank you in advance for your cooperation. We look forward to completing these important infrastructure upgrades in your area. For more information, please contact the Project Lead.
