

Project: Bulk Water Station (VAU-002)

Updated: February 7, 2019

Description:

A bulk water station is a service the City of Vaughan offers to businesses conducting construction and maintenance work who require large quantities of water.

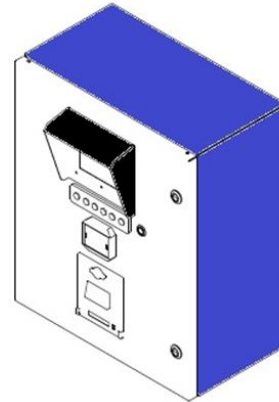

The project includes the retrofitting and upgrade of the controls at the current four (4) existing bulk water filling stations.

Benefits to Community:

This retrofit will improve customer service and help meet the needs of the City's business community of water haulers.

Current outdated Station Control Panel

New station (outline) coming soon
